The Vision X™ IF

The Panini Vision X™ IF check scanner provides an economic entry solution for low volume check or document processing with the proven robustness, reliability, and scalability of the Vision X family of products.

With the Panini Vision X portfolio of Distributed Capture Solutions, Panini customers can fully realize the advantages and efficiencies available with the digital transformation of the paper check

“The Panini Vision X™ series is a perfect solution for growing businesses.”

### Benefits

- Economic entry level reliability that can be placed at low volume locations without compromising image quality, MICR reading, or scalability, ensuring lower cost transactions while minimizing the costs associated with errors and manual intervention
- Ability to match performance requirements with a low volume, single feed solution
- Ergonomic feeder with automatic document detection and feeding, eliminating the need to manually feed documents
- Maintains the proven robustness and reliability of the Vision X family of products, providing the lowest Total Cost of Ownership
- Same small footprint and quiet operation as other members of the Vision X family
- Ensures full compatibility and easy integration with the Panini family of products, ensuring investment protection with the lowest cost of deployment and support
- Preserves the “U shaped” track wall for outstanding document handling and easy removal of jams or foreign objects
- Two image cameras offering the ability to capture the front and rear image of documents in a single pass
- Includes a large exit pocket ideal for maintaining transaction integrity

### Hardware Characteristics

- Single Document Feeder
- Front and Rear Image Capture
- MICR PLUS® Technology E13B or CMC7
- Exit Pocket – Up to 100 documents
- Panini Vision API
- USB2 Interface with Cable
- Image Format – 100, 200, or 300 dots per inch (dpi), black and white & grayscale, BMP, TIFF, JPEG, and G4
- High Torque Motors
- External Power Supply – 115/230 volt
- Optional Inkjet Printer – REG CC compliant

### Software Characteristics

Utilizes the Panini Vision API and is software compatible with the complete Vision X family.

A Vision X device can be quickly and easily upgraded via a software upgrade through the network. Scalability is offered in numerous areas including device speed, printing configurations, and document feeding to accommodate a broad range of transaction volume and processing time requirements.

Panini offers check capture solutions that help customers fully realize the advantages and efficiencies available with the digital transformation of the paper check. Panini's scalable check capture solutions address the complete range of distributed check processing opportunities.
